Well, what can I say about this song most of you don't already know?

It's one of the most recognized songs in the over ten years DDR has. If you have played DDR, you surely have played or at least this song once. Not the most difficult but surely one of the most catchy and danceable songs there are.

By the way, check out the latest OLR Podcast for a chance to win an autographed copy of DDR SuperNOVA signed by SMILE.dk! Thanks to Under Sedation Live co-host and OLR contributor, Jon "bresslol".
