Shoot them down or shoot them up? Don't care just shoot!

Today's pick is Extreme (Menu) from Space Invaders Extreme Audio Cluster

Please note due to copyright issues I can not make this song available for you to download directly.

In commemoration of the release of Space Invaders Extreme on XBLA, here's a song from the original soundtrack.

One of my favorites, sadly it isn't featured in the PSP/XBLA version. But still a great game and a great soundtrack nonetheless. And this song has a remix done by none other than Ryu*, of BEMANI fame.

So if you haven't given SIE a try, I suggest you to do so, it's cheap and great!
