Who says it all has to be from a game?

Today's track is "OG Original Gamer" from This Gigantic Robot Kills {audio}<http://www.angry-gamers.com/music/originalgamer.mp3>{/audio}

Please note due to copyright issues I can not make this song available for you to download directly.

Everyone by now should know about my love of Nerdcore. Original Gamer is the 10th track from MC Lars latest album; This Gigantic Robot Kills. It's a great track starring 3 of my favorite genre artists. MC Lars, MC Frontalot and Jonathan Coulton. If you like it please support the artists and [buy the cd](#) !

Bonus track after the break (My favorite from the album!)
