Freezepop is probably the most famous Harmonix band, they have appeared in most of their games. One song I like the most from them is Super-Sprode, which basically represents all of Freezepop's fans, trendy yet nerdy. It has some pretty catchy tunes and the lyrics are pretty hilarious. So go play the song that represents most of us here in the OLRmy and show your love for Freezepop!

This song is also available on the Rock Band Music Store for download, so go get it!
