Well with E3 right around the corner this post is for the OLRmy.

What do you hope will be shown tomorrow? What do you want to be shown?

Let us know in the comments! When the big show hits tomorrow come back and leave a comment letting us know what you thought!

**Edit:** Remember Sonyfriends Sony's conference will be watchable from Home! (Finally a good use for it!) You can also watch the Microsoft (and the rest) conference tomorrow at [IGN](#)
