I'm sitting here waiting for the Nintendo E3 conference to start.

Today's track is "**Starbit Festival**" from **Mario Galaxy!** {audio}http://www.angry-gamers.com/music/102_Starbit_Festival.mp3{/audio}

Please note due to copyright issues I can not make this song available for you to download directly.

Ok I admit I dropped the ball yesterday with E3 and everything happening. But today I've got one of my favorite songs from Nintendo's Mario Galaxy on of the best platformers of this generation. A lot of people seem to have forgotten just how great the music in this game is. It's the first Mario game with a fully orchestrated sound track and it sounds amazing! Here's hoping we find out about a sequel in just a few minutes!
