For legal reasons I can't make this song available for download directly.

You'd be hard-pressed to find anyone who *hasn't* heard this song recently... with various appearances in games such as Lumines (PSP, XBLA), as well as the occasional cameo in the Wii action title, No More Heroes, (I've been known to idle in the shops just to listen to it!) So hopefully you're familiar with the synthesized awesomeness that is Genki Rockets! It's even more awesome performed live, as it was back in 2007 for the 7/7/07 LIVE EARTH concerts.

Oh and it did make an appearance in Orange Lounge Revolution. :3

(Editor's note: I'm currently away from my home computer, so wednesday updates will be sparse until my return sometime in August. I do have a song lined up for the week of the 7th anniversary show, though. So I'll catch you guys then!! --DT)
