It's been a while since I've posted something from a rhythm game, and what better pick than Beethoven Virus from PIU. While PIU isn't that popular in the States because of DDR, it's very popular everywhere else. Especially Mexico where the most recent World Champs have risen. Well, what can I say about this song other than it is possibly the most recognized song in the game, and it shows since it has been on pretty much every PIU game ever. And it is possibly one of the most fun songs to play and dance to. So if you see a PIU machine near you, give it a try and play this song, you'll surely love it!

If you want to post your opinion about today's track or you've got a song suggestion you would like to see featured from a game let us know in the comments or hit me over at Twitter (@act_deft) and we'll see what we can do about featuring it in an up coming article!
