For legal reasons I can't make this song available for download directly.

Another music game pick? Trust me this one rocks. It first appeared in Guitar Freaks 8th Mix/drummania 7th Mix and later finally arriving on PS2 in Guitar Freaks/drummania: Masterpiece Gold. A cover of the classic J-Rock song by Gackt, it was covered by Naoto Fuuka (in-house for Konami) and I have to say it certainly lives up to the original version, while not *quite* the same, still manages to rock pretty hard.
