When I say the name, King Kong and D. Jungle Girls, what comes to mind? Usually either 'Boom Boom Dollar' or the KOG G3 remix that appeared in Dance Dance Revolution 3rd MIX or DDR Extreme 2 on PS2, right?

This was the only other song they've ever had licensed in DDR, and most people don't remember it as fondly for whatever reason. But I loved it! It was definitely right at home alongside the other great tracks that 4th MIX had to offer, like HERO, Boys, B4U and all the other awesome songs.

And I totally wouldn't be against an 'X3 Edit' in a future DDR title. Just sayin'...
