Sorry this one's late coming up but here are your gaming weeks from the OLR community:

[kikineko](#): I tried to play Animal Crossing Wii but Kylie broke the disc :(Other than that Banjo Kazooie and Peggle on 360! Oh and Tengoku Gold!

[Deekman](#): Only thing I played last week was Fallout 3

[BlueSwim](#): Zelda: Phantom Hourglass. Solid game, but the touch control hinders the game's combat. No hype for Spirit Tracks yet.

[DarkTetsuya](#): obligatory NFS:UG2, also Eat Lead (frustrating!) and The Wheelman demo (kinda fun, the GTA meets Burnout comparison is right on!)

[BlackLab](#): zomg Puppy iz contributing. Lots of Left4Dead, some RB2 (DONT STOP. BELIEEEEEVIN.) And various games on Whirled.com (gotta support em)

[MistyOLR](#): still more pegglecrack and rockband ^^;

[Ray Ayanami](#): Pop'n 16, IIDX 16, Metal Slug 7, DTET, Tetris TGM and TGM clones, Star Soldier R, Bangai-O Spirits.

[Zakupilot256](#): Burn Zombie Burn on PSN, RE5 PS3 and Command and Conquer Red Alert 3 ultimate edition and PAIN on PSN. its been a very sony week.

[Kroze](#): Burnout Paradise, evil character on Fallout 3, Garry's Mod, Puzzle Quest Galactrix, school work, and Wanted: Weapons of Fate (SUCKS)
