Please note due to copyright issues I can not make this song available for you to download directly.

This is the song from the first level of Klonoa on the Playstation 1. Klonoa was one of the first 2.5D games and was a fantastic platformer in its own right. With a deep story and lovable characters this game series is still held in high regard by fans today. There is also a remake of the first game in the series that has recently been released on the Wii with updated graphics and sound which should be released in NA May 5th 2009!
