Burning Heat!

Composed by Mr. T feat. Motoaki Furukawa

I was originally stumped as to which song I was going to submit for today's entry, but given the rising temperatures (summer's almost here!) I thought I'd go with a particularly hot selection, *Burning Heat!*

While most players are familiar with this song's awesome synths and rocking guitar riffs from its appearance in *DDRMAX2: Dance Dance Revolution 7th Mix* (or the extended edit in *beatmania IIDX 7th Style*)

this song originally appeared in the previously Japanese-only

Gradius II: Gofer's Ambition

, which appeared in the Arcade, (Available on the

Gradius Collection

for PSP, thanks gs68!) as well as on the Famicom (NES), MSX, and even the PC Engine (TG16) CD-ROM! (

And you can find that last one on Nintendo's Virtual Console service on the Wii!
