To bring us into the weekend I decided to try out making some sprays for such great games as Team Fortress 2 and Left 4 Dead! The sprays look awesome in game and let you spread the word about our happy little family. Remember to join our [Steam Group](#) and start spreading the OLR love!

[Download the Sprays Pack Here](#)

Installation instructions are included in the zip.

See a demo of each of the sprays in the pack after the break!
