

This week's show was recorded on March 10th, or MAR10 day. A day to celebrate Mario because... it's not his birthday... nor an anniversary... just another silly nerd holiday like some others out there. Nintendo does embrace MAR10 day though with some announcements of their own, including the obvious (a new movie, of course), and the "well that makes sense" (a new lego set). We celebrate Mario and ALL things great in the gaming industry... and drag those things bringing the gaming industry down (certain CEOs). It all makes up another week of the longest running podcast about video games, Orange Lounge Radio!

Also in the news:

\* Yuzu Emulator Folds

\* EA on Generative AI

\* Toriyama Akira Passes at 68

\* WB to Delist Adult Swim Games on Steam

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
