OLR Returns after a week off with this show taped January 18th, 2009. We were joined in studio by some special guests due to DarkSakura having the night off. The video game news does not stop just because the holidays are over... we talk about a cult gaming series about to make a comeback on the PSP. The DS is about to get a port of Final Fantasy Legend II, better known as what started a more popular series to others. Nintendo continues to shatter records, but sadly you will not be able to buy Nintendo Wiis at Circuit City anymore... All this news and more including our live chatroom, the mailbag, and your phone calls on the show where EVERY gamer has a voice... Orange Lounge Radio {enclose OLR_309_011809.mp3}
