On this episode of Orange Lounge Radio, Dark Sakura reveals her unique plan to fix the economy. Oh, and then we decide to talk about some video games. Noby Noby boy is finally dated for PSN, and even though we still do not understand it, hey for 5 bucks the price is right! Would we spend that same kind of money on Little Big Planet costumes though? We can not believe it either, but Uwe Boll has apparently won a movie award in Hollywood! Well, okay when you hear what it is, it makes a lot more sense. In Part B of tonights show, a big announcement arrives in the form of GTA4 download content. Is it enough, however, to distract us from the FREE youtube street fighter game? Yeah, probably. All this and more including live chatroom commentary, phone calls, e-mails and much much more on the show where EVERY gamer has a voice: Orange Lounge Radio! {enclose OLR_310_012509.mp3}
