DJ Hero is in the house tonight, and DJ Loki takes us thru a spin of the demo unit. You will never guess where he got it from. Also we touch on the gaming news, such as more information on the Epic Mickey game that is Wii bound. Could XBOX 360 Avatars soon play games at a retrocade? Could the Wii balance board soon be used in Airport security? We tackle the questions that this weeks gaming news makes. In Part B tonight, there are some new developments with Facebook and Twitter support on the 360. Now we have an idea of when to expect them. Also that was expected was an inevitable port of Rock Band to the iPhone, and the details are discussed on our show. All this and MORE including your e-mails, chatroom antics, phone calls, twitter topics and so much more on the show where EVERY gamer has a voice- Orange Lounge Radio!
