On the first OLR of 2010... What FREE theatrical release was accidentally available on your PS3 for a limited time last week? What in the heck is a WiiWaa? Is it really as silly as it sounds? And what will the T2P be on this device? Mwahahah. Also, what is Google up to when it comes to gaming? Hint: It involves Youtube. In Part B tonight, we talk indie games and fan translations and then resurrect an old favorite segment of ours, LISTLESS! The topic: Thing we most want to happen in gaming in 2010. You are not going to believe what makes the cut and what gets eliminated from the list with our special guest host Bobby Blackwolf from The Bobby Blackwolf Show, our fellow Sunday night show on AllGames Radio. All this and much MORE including your chatroom antics, phone calls, e-mails and twitter topics on the show where EVERY gamer has a voice-- Orange Lounge Radio!
