It might be Pi day, but Jamie is talkin' about Atari after attending a local celebration including the common Atari games... and the obscure. Loki and Rob are still all about Final Fantasy XIII, but there are plenty of other games to talk about thanks to Game Developers Conference! Sony details the Playstation Move, but is it something we should all be running to get? What does Microsoft have ready for E3 to counter? Some interesting theories bounce around in studio. In Part B tonight, DJ Hero downloads disappoint our hosts, but Rock Band downloads have at least one host ready to rock... erm... pop out! Why oh why do they keep teasing us about a Kid Icarus game? Also, it sounds like all the achievement junkies in the world might have to upgrade to a new cell phone plan... All this and MORE including your chatroom antics, phone calls, twitter topics, e-mails and MORE on the show where EVERY gamer has a voice -- Orange Lounge Radio!
