We are back after a live break and jump right into a barrage of E3 rumors. Could it be that Harmonix will unveil a dancing game for Project Natal at this E3? Is there truth about the rumors of Hulu on Xbox Live? Who recently left Microsoft? And yes, more discussion on this whole ten dollar thing comes back yet again... **NEVAR FORGET!** In part B tonight, we talk a bit about music games including a new iPhone game from the Parappa creator... but sadly there are no cartoon animals to be found. Goldeneye, Sonic Adventure and Crazy Taxi are all poised to make a big return... and also soon to make a big splash? **BROADWAY** in your **LIVING ROOM**. Okay... maybe that will just be at Robs house. All this and **MORE** including your chatroom antics, live phone calls, twitter topics, e-mails and everything we can think of to give **EVERY** gamer a voice here at Orange Lounge Radio
