

Halo 4 has already leaked to the internet, and our hosts try to find the answer to why Microsoft games always seem to leak to the internet well ahead of it's release. Of course if you are Rob, you've already invested way too much money into it. Allen joins us in studio tonight and chooses the Classic Game of the Week

Also in the news this week:

- \* Mass Effect: Omega DLC Details

- \* Valve looking for hardware testers

- \* Playstation 3 controller to be hot and cold?

- \* Kickstarter to launch in the UK
