

Sony Playstation has a flash sale to rival that of Steam, with deep discounts of 99 cents on games that are a couple years old. Flaco Jones joins Jamie and Rob tonight to talk about some of these deals, including Jurassic Park, a game that came out a couple years ago, but hey-- it's based on a movie that's way older than that! Rob surprises Jamie with a 3DS game for a birthday present, and Square surprises all of us by a leak that shows Final Fantasy 3 may be headed to PC. Could the other iOS/Android versions make their way to PC soon? We discuss LIVE with our chatters.
