Pac-Man turned 35 years old this week, and we spend some time in the opening moments of our show to reflect back on the first time we ever played Pac-Man, and just what this series has done for video game culture. Our listeners share their stories too later in the show. We also get into the news for the week, The Witcher 3 was the big release for the week. Rob has some early impressions on the game, but some Xbox One players are finding a nasty save game bug.

Also in the News:

- * Splatoon recent Test Fire

- * Nintendo World Championship details

- * Sony opens VR focused studio
