It's the week the Playstation VR is going to release, and our hosts made some big decisions this week on their pre-orders! We get into discussion on the Playstation VR hype, and take some calls from listeners on their thoughts on this first console VR experience about to hit retail as well.

We are also joined tonight by Ryan, one of the creators of Monsters & Monocles, available on Steam Early Access, and coming later to the Playstation 4! We talk about what inspired the game, and how the game has been developed across a team that works long distance!

Also in the news:

- * Fallout / Skyrim mods back on PS4

- * Pokemon Go Updates

- * Wii-U port of Bloodstained still happening?

- * Are some reviews clickbait?

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
