Twitch has been in the news not just once but several times this week for a variety of reasons. We discuss the upcoming client as well as the "Pulse" feature that is incoming to take on other social media streams. How do the hosts feel about video game livestreaming? We also get input from our live chatters, then jump into our gaming weeks, which include reactions to new switch titles such as Blaster Master Zero and Voez.

Also in the news:

* Netflix and Hulu will come out eventually on the Switch

* Hasbro and Harmonix team up for a card game

* Updates to ShareFactory

* Mass Effect: Andromeda Customizations

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
