It's Gamescom week, and Microsoft kicked things off today with an event to push the Xbox One X. They must be doing something right, as preorders for the "Project Scorpio" bundle sell out before our show is even on the air. How do our hosts and live chatters feel about Microsoft's place in the video game marketplace right now? We discuss, then get into our news for the week which includes late breaking news about a Playstation "hack" ... but should we be that worried? (Hint: It really helps to have Two Factor Auth enabled!)

Also in the news:

* Pokemon Go to add Mewtwo in special raid type

* Mass Effect Andromeda Single Player is done... officially

* New Splatoon 2 bundle retailer exclusive

* Playstation 4 firmware update

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!

LIVE on the VOG Network, Sunday nights at 6 Pacific, 9 Eastern www.vognetwork.com
