We take a look back at our predictions from the prior year, and make some new gaming predicitons for the year 2018 in gaming. So much can change in a year, as we see with the story of the Nintendo Switch, which went from barely known a year ago to a console breaking sales records as we talk about this week in the news. All this and a little chat on movies that scarred us too on another week of the show where every gamer has a voice- Orange Lounge Radio!

Also in the news:

* HTC Higher Res Vive?

* Battlefront 2 Mod allows you to play a SNL sketch character

* Burnout Paradise Remaster

* No more Kinect adapters

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
