Many changes have happened at OLR Headquarters, including our move of the live show to Twitch.tv! We spend a bit talking about the move this week, then get into talking about some of the weeks news in gaming, which includes news of Discord promises of profit sharing to developers. And this comes right off the heels of news regarding Epic's store last week. Sounds like the gaming store wars could be heating up!

Also in the news:

* Heroes of the Storm eSports sudden changes

* Mortal Kombat 11 Details

* Doom 25th Anniversary maps

* The Witcher x Monster Hunter World

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
