Nintendo Labo VR was released this week, and LOKI brings his cardboard to the studio for our hosts to try out and give impressions live. We talk a little about this first Nintendo jump into the VR scene. We also talk about some controversial DLC that has made it's way into the remaster of Resident Evil 2, yet seems to be an ongoing trend in the industry. Why do pay-to-unlock keys keep coming out in the various online stores? We discuss, and get into the other big topics of the week.
