The demo for the Final Fantasy 7 remake appears to be real, as plenty of video and footage has released to the internet over this holiday week. This also means that many of the files have been mined for further information, and so a whole lot is out there about this highly anticipated game. We get into some of the information and see if it makes us more or less hyped for the game. We also talk about our gaming weeks and more news of the week on this first episode of OLR for 2020 on the continued holiday weekend.
