The cast is assembled for the first full news week of the year. However while we are all together we have to talk one last time about 2019 and our games of the year. Also, we have to visit our time capsule of silly predictions from earlier in the year. How much did we get right and wrong? Tune in to find out. Then we get into the weeks worth of news, including various headlines out of Consumer Electronics Show! It's a great time to be a gamer into collectables, although your wallet might be crying out in pain...

Also in the news:

* XBox Series X to support Windows as well as Other Stores?

* Pokemon Direct recap

* Microsoft technology to detect predators

* ConceptUFO by Alienware

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
