This week will be a big week for Microsoft and Xbox as we expect some game announcements on July 23rd, however there's some big movement happening in advance of this date. Could something one of our hosts suggested years ago as a big move Microsoft could make be finally happening? We will find out soon! Also, with Nintendo getting an official Lego set, and Sony set to ramp up Playstation 5 production, there's gaming news for everyone this week!

Also in the news:

- * Cyberpunk 2077 Updates

- * No Man's Sky "Scary" Update

- * QuakeCon at Home

- * Metacritic to delay User Reviews
