

A pair of stories about Twitch start off our show tonight, as twitch has become such an important part of gaming culture. This doesn't stop one cable talk show host from shading it though as being about just watching people play video games, but to us is it more than that? Also, an interesting study on moderation on Twitch has led to the conclusion that they need to have more moderation. How can Twitch effectively do this? We talk about all this and more on another week of the show where every gamer has a voice!

Also in the news:

- * NetherRealm to work on a Marvel Game?
- * Capcom Arcade Stadium going Multi-Platform
- * Stadia to get a Search Bar
- * Among Us coming to PS4/5

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
