CES and a trip to see Avatar brings up discussion about 3D television... could someday that mean 3D games? CES also brings us the classics with Microsofts Game Room, of which our hosts have some varying opinions. EA is shutting down some servers while Nintendo is shutting down a fan film. Were these both the right thing to do? Also, rumors about an NBA Jam revival abound... break out the soundboard! In Part B tonight, we talk about increased BluRay storage, and rumors of Blizzards next MMO. It looks like a big Nintendo franchise game is no longer being published, and we take reactions from our live chatters. All this and MORE including our gaming weeks, the mailbag, LIVE phone calls and much more on the show where EVERY gamer has a voice- Orange Lounge Radio!
