Between the Game Awards and the Playstation Experience, it was a far busier week in gaming news than we usually get in December. Rob, Jamie and Matt are joined by Dan, who all taped at a special time on Sunday. Reaction to the Game Awards are announced, with some of the things that we liked, as well as the things we didn't like. The whole conversation may have just evolved into a lovefest for Ken & Roberta Williams, but really, is that such a bad thing?

Also in the news:

- * Street Fighter V announced as PS4/PC Exclusive

- * Broadcasting comes to Steam

- * Retailers remove GTAV in Australia

- * Final Fantasy VII for the PS4... but don't get too excited

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
