

Tonight, we welcome to the show Don & Auston with [Starr Mazer](#) , a point and click adventure blended with a shoot 'em up and

[their kickstarter](#)

which is in it's home stretch. We talk to them about the amazing talent assembled for their soundtrack, a narrative known as OMG! and a very interesting similarity between one of the guests and our own roots as a show. Our live chatters get a chance to ask a few questions of their own as well. Also as usual we discuss the latest in what's been floating around the gaming blogs this week, including a very convincing fake-out about Rayman being in Super Smash Brothers. Are we mad about this fake news, or job well done?

Also in the news:

- * Bethesda E3 Press Conference is happening

- * Shadow Realms Canceled

- * SquareEnix Trademarks

- * Steam Greenlight changes

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
