Preorders for the SNES Classic left many people frustrated this week. Who is ultimately to blame for all this frustration? We try to figure out how this can be prevented in the future-- if it can be at all. Then after our gaming weeks, we get into gaming news for the week including similar pre-orders for the Xbox One X, which one e-mailer messages us about. Also, it sounds like data transfer for existing Xbox One owners to the X will be pretty easy, but you might still want to set aside a little time.

Also in the news:

- * Half-Life Episode 3 plot? Or once was?

- * Secret of Mana remake

- * Final Fantasy XV Windows Edition

- * Horror Game put on Pirate Bay by devs

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
