We are back after a week off while Rob was at DragonCon, and we start by recapping the news from the week we were gone, including news of Miiverse coming to an end. Is this Nintendo social network gone too soon, or was it something that needed to go? We discuss this as well as controversial DRM for Sonic Mania that made it's way onto the Steam release... which of course was hacked within 8 days. You know what they say, #hackersgonnahack. This isn't the only controversy on a week full of hot topics. Join us for this and more on another week of the show where every gamer has a voice!

Also in the news:

- * Some Switch games to require extra MicroSD Memory

- * Destiny 2 Shaders

- * Blizzard eSports Arena

- * Nintendo Holiday Switch supply issues

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
