After missing a week unexpectedly last week, we jump into the why, as well as the news that we missed last week. Bayonetta 3 finally has a date! Nintendo has purchased a movie making company that has many people talking, but we talk about what this purchase might really be about, and why Hollywood will probably keep making the features. We have plenty of time for this weeks news too, it's two weeks worth of gaming on an all new episode of the longest running video game podcast, Orange Lounge Radio!

Also in the News:

- * Minecraft bans controversial new technology

- * Twitch Updates and Changes

- * Lego to Release Atari 2600 Set

- * No Man's Sky Endurance Update

All this and more on the show where EVERY gamer has a voice-- Orange Lounge Radio!
